FLOPSY'S BERRY BASKETS

You can eat these tasty baskets whole, not just the berries inside!

Ingredients:

- packet of instant dessert mix and milk
- flat-bottomed ice cream cones
- thick, red licorice
- 50 g (1³/₄ oz) desiccated coconut
- berries or berry sweets
- green food colouring

Method

1. Following the directions on the package, whisk the instant dessert mix and milk together in a bowl then refrigerate to chill.
2. Spoon the dessert mixture into the ice cream cones. One package of dessert mix should fill about five or six cones.

4. Decorate each basket with a few berries and make handles from strips of red licorice. Serve immediately, before the baskets become soggy.
